SLALOM EVENTS AT OFSAA

The following new rule applies for athletes who qualify for OFSAA only since we do not have a Slalom event at our TDCAA Championship.

1. FIS approved slalom helmets which **must have a chin guard attached to the helmet** and which bear the following certification codes (CEE 1077, US 2040, or Snell S98 or R98) are permitted **OFSAA slalom specific events only**. Otherwise, competitors must wear a GS helmet.

PAGE TWO

Hiking to complete passage of a missed gate is only allowed in Slalom events. A competitor who misses a gate in a Slalom event may hike only if no interference with the following competitor will occur; a passed competitor may not continue on course. If a competitor misses a gate in a Giant Slalom event, he/she must immediately exit the course.

Al Hagerman, one of our TDs emailed this to me:

"The no climbing rule is a FIS rule. As GS is a speed event with set time intervals it was decided that if at any time a racer comes to a complete stop and forward motion ends then the racer is done - no climbing. This is for the safety of the racer and the next racer on course. You are still allowed to climb in SL as long as you not interfere with the next racer. If you cannot make the gate in a safe time the racer must ski out .
